Philips
Clock Radio

Big display

AJ3400

Always clear, always on time

with large display

Big on sound and convenience, this Philips clock radio delivers the best of radio with FM digital tuning. A large display lets you tell the time at a glance, and built-in power backup ensures you wake up on time even after a power failure.

Everything you need

- Big display for easy viewing
- FM digital tuning with presets
- Dual alarm to wake you and your partner at different times

Easy to use

- Easy clock set for instruction-free time and alarm setup
- Wake up to your favorite radio tune or a buzzer
- Repeat alarm for additional snooze
- Sleep timer for easy falling asleep to your favorite music
- Battery back-up ensures memory of time during power failure

PHILIPS

Highlights

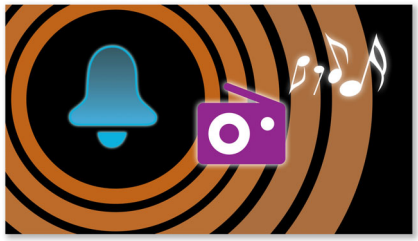
Big display
The large display enables easy readability of the content on the screen. Now you can read the time and alarm easily, even from a distance. It is ideal for the elderly or the visually restricted.

FM digital tuning with presets

Digital FM radio offers you additional music options to your music collection on your Philips audio system. Simply tune into the station that you want to preset, press and hold the preset button to memorize the frequency. With preset radio stations that can be stored, you can quickly access your favorite radio station without having to manually tune the frequencies each time.

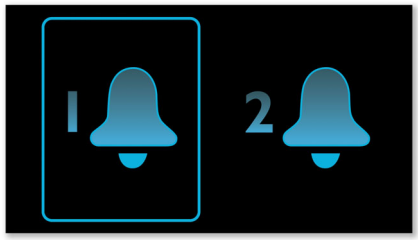
Easy clock set
The time and alarm are so easy to set up that referring to the Quick Start Guide or Instruction For Use may not be necessary. Simply refer to the Clock radio's silkscreen buttons to set the time and alarm.

Wake up to radio or a buzzer



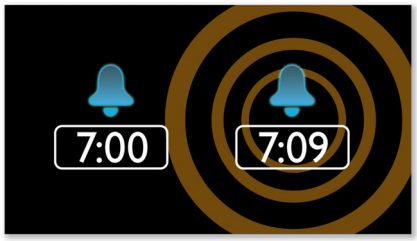
Wake up to sounds from your favorite radio station or a buzzer. Simply set the alarm on your Philips Clock radio to wake you with the radio station you last listened to or choose to wake up with a buzzer sound. When the wake up time is reached, your Philips Clock radio will automatically turn on that radio station or trigger the buzzer to sound.

Dual alarm



The Philips audio system comes with two alarm times. Set one alarm time to wake you up and the other time to wake up your partner.

Repeat alarm



To counter oversleeping, the Philips Clock radio has a snooze feature. Should the alarm ring and you wish to continue sleeping a bit longer, simply press the Repeat Alarm button once and go back to sleep. Nine minutes later the alarm will ring again. You can continue to press the Repeat Alarm button every nine minutes until you turn off the alarm altogether.

Sleep timer

Sleep timer lets you decide how long you want to listen to music, or a radio station of your choice, before falling asleep. Simply set a time limit (up to 1hour) and choose a radio station to listen to while you drift off to sleep. The Philips radio set will continue to play for the selected duration and then automatically switch to a power-efficient and silent stand-by mode. Sleep Timer lets you fall asleep to your favourite radio DJ without counting sheep, or worrying about wasting power
